

Research findings into college success with Cambridge

Studies show that Cambridge International Education qualifications are excellent preparation for students heading to the US.

Students with Cambridge qualifications are much more likely to enrol in college straight after finishing school than those with other qualifications.

Cambridge qualifications improve the chances of a student staying on at university. Cambridge students were more likely than International Baccalaureate (IB) students to continue their studies and not to drop out.

Students with Cambridge International Education qualifications are more likely to graduate than students with other qualifications, and to finish their degrees on time.
